DAILY TRIBUNE. The Republican Head Quarters for the campaign are at No. 332 Lake street, up-stairs, Open every day and evening.

Yr. Horse takes time by the forelock. He

has already announced himself as the People's Candidate for re-election to the Clerkship of the Recorder's Court, which be now fills. We hear that he is importuning Republicans to support him upon no-party grounds, and that reliculars and begging letters are in every nan's hands. Were it certain that the Republieux would make no nomination for the place in quasilon, Mr. Hoyne is the last man whom ther ought to support. Among trimmers and two-faced politicians of the sixpenny sort, he is pre-eminent. He can change his policieal views inst as many times in a day or month as he al-ernately meets and talks with Republicans nd Democrats; but when he works, it is alathed sort in the Dimmecratic ranks. He is all things to all men, except when elec-tion approaches; then no man in the low dance-houses and Irish groggeries is more potent than he. It will be recollected, that, during his present term of office, he performed one signal service for his country, for which he ought not to be forgotten; his Dimmeeratic friends and we are of the opinion that the Republicans will do the same thing. He was one of the Democratic Judges of Election at the Seventh

desired. How much of this he may have contributed to promote the views of the Democra cy, we have no means of knowing—enough, we have no doubt, to make all Republicans, cognihere in doubt, to make all Republicans, cogni-nat of the fact, willing to see him moving his best to make way for a successor who has no jety pretensions. ATTENTED SUICIDE—Yesterday afternoon, a young German jumped from one of the tug-boatelying at the north end of Clark street bridge, into the river for the purpose of drowning nimself. He was, however, promptly rescond by the by standers, and was damaged only to the extent of a good ducking. The young man was recently arrested upon a charge of bestardy, and to obtain his release from jall married the complainant. This, he found was getting out of the frying pan into the fire, and he refused to live with his wife. She pursisted in foflowing him everywhere he went, and in order to get rid of her determined to commit suidde as the most effectual means. Mr. Mason, from the Committee on Foreign Relations, submitted a report on Central American affairs.

The report reviews at length the whole case, saying in conclusion: The law of 1794, equally with that of 1818, was founded in wise policy, to preserve the peace of the country and mainain amity and amicable relations with foreign States. It denounces its penalties only against those, whether citizens or foreigners, who in its preserve the protection and hospitalities of laws by secret and unlawful practices, to wage piratical war against nations with whom we are at peace, and in most cases dishonoring ties of laws by secret and unlawful practices, to wage piratical war against nations with whom we are at peace, and in most cases dishonering the American flag, used to shield them in their acts. Were such things tolerated, it would be to commit the peace of the country to every restless and turbulent adventurer who, unequal to or disdainful of the terms of peace, would find food for his authition only in the liceuse of the earnage, the rapine and navages of war. It would take the smairs of Goweramest his our foreign intecurse at least, from the hands of those to whom they are committed by the constitution and laws, and leave them under control of at the pleasure of unknown and irre-

stitution and laws, and leave them under con-trol or at the pleasure of unknown and irre-ponsible agencies. The report concluded with the following resolutions.

1. Resolved, That no further provisions of law are necessary to confer authority on the Presi-dent to cause arrests, and seizures to be made on the high sear, for offences committed against the neutrulity laws of 1818. The com-mittee find that said power is necessarily im-plied by the terms of the 8th section of that act.

2. Resolved, That the place where William 2. Resoleed, That the place where William Walker was arrested, being without the jurisdiction of the United Slates, the arrest-asswithout warrant of law; but in view of the circumstances attending it, and its result in taking away from a territory and state in amity with the United States, American citizens who were there with bostlie intent, it may not call for further censure, as it might hereafter be drawn into precedent, if sinfered to pass without remark. The committee, inasmuch as the neutrality law may be made more efficient by some proper provision for bringing offenders against it to trial, who after arrest at sea are brought back to the United States, report a bill making it the duty of the commanding officer making such arrest, to bring or send the offenders, together with the cargo of the expedition, to the port whence the started, or where the clearance was obtained to be surreadered to the collector to be dealt with according law. It is made the duty of the collector to to the collector to be dealt with accordin law. It is made the duty of the collector give immediate actice to the District Attorne and Marshal of their presence, together wit the facis and circumstances which led to the arrest, and it shall be the duty of these office to institute proceedings against them.

The subject was made the special order for the 9th February.

Mr. Foot, 'also of the Committee, expressed his full concurrence in the general principles and propositions half down in the report, but so far as the report, either in express terms or by implication, imputed blame to Com. Paulding, he entirely dissented from it.

Mr. Harlan made a speech against the Lecompton Constitution; to carry out the view of the President would be to secure the organization of a Slave State on free soil, but to adopt the views of Mr. Donglas, would be to secure the organization of a Free State in accordance with the will of 'the people.

At the election last full in Edgar County, At the election last full in Edgar County, there was a close contest for County Clerk—the Deservative electing the residue of the ticket by majorities ranging from 15 to 220. Each side claimed the Clerk; each party charged the other with having polled illegal votes. Finally, to settle the dispute both candidates, kryus, Regublican, and Alexander, Democrat, agreed to call it a draw game, and run it over.

Both men were popular with their respective parties. The Democracy were confident of electing Alexander by 200 at least, and heavy election was set for Jan. 21st, last Thursday The old Whigs and Republicans united, as did the Buchanan and Douglas Democrats. Each side did its best. The day for election was delightful; the vote police was heavier than that cust at the Presidential election, and the result was a Republican triumph by fifty one votes in this heretofore Democratic county The following are the returns: Rives, Republicant.

The Republican vote has increased over that for Fremont 398; and 90 over that cast for grafic vote is 43 short of Buchanan.

This is a most gratifying result; and may be said to secure the Republicans a representative fore set down as Democratic. Our friends are closing up the rashwin Egypt and central Illi-nois for a great fight next fall. The "Lincoln boys" are going into the contest with their coats off, and riesves rolled up.

Peorla Transcript. Gastie has purchased the Peoria Transcript, which he will publish daily. He takes with him Mr. Wann, who for a year past has assiste in editing the Gazette. The Gazette under M G.'s anspices has been a steadfast advocate of human rights, and we have no doubt but he will make a paper in Feoria that will be a valuable surilliary to the Republican cause in Central lilitois. He has located at a very im-portant point—both commercially and politi-cally. Peoria is the second city in Illinois in population and business. Our friends there are able and willing to support a good, energetic advocate of their interests and principles, and we believe that they have now secured the ser-vices of a man who will fill the measure of their

requirements.

Paoria is the commercial emporium of the fertile and populous counties of Peorial Woodford, Tazewell, Falton and Mason. These counties are all closely balanced in their poli-tics, and may be considered as the battle ground for the next Legislature. We enticipate a good work will be done by the Transcript during the coming campaign in that section of the State. Its circulation should be largely extended that its neafplaces.

The New publishes their card of withdrawal, and replies in a spirited article; from which we make an extract. The places of the seven wild catters were promptly filled by twelve new subscribers. The New is deing a good work for the people of Minnesote:

The Decatur correspondent of the Springfield Daily Joarnal gives the following account of a little affair that recently occurred in that minhature city, the parties being a well-known exhotel keeper, and the wife of a saloon keeper:

One night hast week, the husband of this woman, returning home from his saloon at an acties hour than usual, was startled by his vite a seams, proceeding from within the house. On entersoring to open the front door, he found it locked, and sushing around to the back door, forced it open an anceceded in making his entrance. On entering, as found he personage aforesaid in his back room, and is wife in the front, who proceeded to inform him how the grain dealer had forced his way not the house, and enterwored by his threats, horee and persuasion, to mocomplish his object. The "infuriated husband" immediately caught he gentleman by the cost collar and drawing out an artramely disagreeshle looking and nost provokingly sharp smife, proceeded to inform him that it he did not pay him for his wounded homer, he would cut his threat and shop him up into mince meat. Whereupon a note for \$2,000, payable six months after date, was drawn up and handed over to the husband, and the gay Lothario allowed to depart with a whole skub, but nearly frightened to death. But the drama does not cid here. The grain merchant not feeling quite willing to pay this little amount of \$2,000, has brought suit against the raioon keeper for conspiracy to extort money from him. The owe will be before our Circuit Court at its next sension.

Cultom has brought charges of perjury and swindling against one of his principal processor, and has demanded a thorough investigation upon them.

In the course of the investigation concerning the Congressional books furnished by the Clerk, the jury refused to inquire into the no torious practices of every Clerk, in this respect, since 1843, which are identical with those for which an attempt has been made to criminate Gen. Cultom. In his case, about 60 members of Coagress were examined, and no stain is left, upon his reputation. It has been suggested if the democratic majority of the Hass wish to probe all things appertaining to corruption, they should investigate is ages attending the passage of all railinois in 1850, and including those is land of Missouri and Arkanasa, embanding together 9,000,000 Texan indemnity bill passed by a Democratic House and Senate in 1854; also the 48,000,000 Texan indemnity bill passed by a Democratic House and Senate in 1854; also the Mexican treaty fund of ten millions, mysteriously engineered through, in which immense fees are understood to have been paid to lobby men.

The Pacific Railroad continues to excite the hopes of the lobby, notwithstanding the Presidential election is over. The Senate Committee has reported a bill proposing to pay in addition to lands \$12,600 per mile to the constructors as fast as each twenty-five miles of distance shall be completed. The same subject engages the attention in the House, and was to-day the object of three hours active proceedings.

Hale's speech of Monday and to-day against the Lecempton frand and the Dred Scott decision, was the grandest oration delivered in the senate since the death of Henry Clay. The side has turned, the vell is torn aside from the hideousness of the Supreme Court, and hereafter that packed committee of slavery propagandists must expect to receive all the rude bufferings on the public hustings which it has no rudely challenged.

The Buchanan was politically educated in the same the same the search provided in the

instruction.

To look for the public security in a strong, consolidated government, and to be distrustful of the people, were inculcated in the very rediments of his party orecid and as proofs that the seeds of his first indoctrination were not seeds of h's first indoctrination were not thrown away upon a barren soil, it is only necessary to refer to his aurogant dictation to the Kansas Convention, and to his more than despotic outrages in Central America.

Does any sine man suppose that the shrewd Douglas would abandon the democratic South, if he believed for a moment that the aid of the South would be necessary to carry the Presidential election in 1860? Nothing in the future is more sure and inevitable than that the next occupant of the White House will be placed there by anti-slavery anti-Southern votes, whether the voters call themselves aguators overeignty Democrats or Black Republicants.

eans.

Mr. Forney says, speaking of the Northern Democratic Congressmen, that there are scores of them who would be gind to vote with the South, but that, with the examples before them, "they have no relish for snicide;" that they would like to see the South happy and calm, but that self immolation is rather too expensive.

(Free assisted Republe, Nov. 2.)

Covernor Wise's defection from the administration has a secret history, which, in the progress of the quarrel between the Democratic leaders, cannot be kept secret much longer.

The President started out with the policy of securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the people of Kanssa a lair vote securing to the securing to the securing the lair vote securing to the lair vote securing to the securing the lair vote securing to the lair vote securing the lair vote securi

gress of the quarret sewech mich longer.

The President started out with the policy of securing to the people of Kansas a fair vote upon their constitution. He sent Governor Walker to Kansas to execute that policy. For a while he stood firm, and wrote a letter to Governor Walker to Kansas to execute that policy. For a while he stood firm, and wrote a letter to Governor Walker (not yet published, but shown by Gov. W. to many persons,) assuring him of the support of the administration. "Let Georgia and Alabama and Mississpot hose," said the President in this letter, "I refil stand by you." That the President used substantially this language is a well authenticated fact.

In the end the "howing" became so terrific that poor Buchanan was frightened out of his wits, changed his policy, he had arranged with Gov. Wise to make a diversion against the five-subsers in Virginia. Gov. Wise influence, were to support the administration programme in Kansas, and the administration were to support Gov. Wise for the United States Senstorship against Mr. Hunter. Gov. Wise arrived here, to complete and parfect these arrangements, on the very day that the Union sunounced the President's submission to the nullifiers. Governor Wise went home, and has been sinpe nursing the wrath which breaks out in his letter to Tammany Hail. Soonly has his scheme of defeating Mr. Hunter blown up, but he himself has been sinpe nursing the wrath which breaks only has his scheme of defeating Mr. Hunter blown up, but he himself has been drawn into commitments upon the Kansas question which destroy his Democratic studing, disabled as he is from making any effective light by the treachery of the President. Gov. Wise is a betrayed man, and as a Democratic politician, ruined. If he does not compass some "retreachery of the President. Gov. Wise in a be-trayed man, and as a Dembersatic politicism ruined. If he does not compass some "re-venge," even if "victory" be unattainable, it will prove that age has wonderfully softenal his temper.

Fire and Steam Fire Engines.

The fire detectives here are breaking up the incendiary recently strange, but mest of the rascals thas caught turn out to be incendiaries by profession, low blackguards who hang around the engine houses, the victims of a confirmed pyromania. From the developments made out of these arrests, there seems no doubt that incendiarism is an thoroughly organized in all our large cities as burglary or larceny.

One of our fire companies recently caused a steam fire engine to be built for them as a shop up town. Its performance, as described in a steam fire engine to be built for them as a shop up town. Its performance, as described in a late letter, was so satisfactory that a similar machine has been ordered by snother company, and a third and fourth are casting about for ways and means to procure similar apparatus.

The ordinary hand singines are thus likely to go entirely out of use for city work. Steam will thus break up whole gangs of fire-runners and be the means of saving a vact amount of demoralization.

The Ten-per-Cent. Law.

The Zanesville (Ohio) Gazette says:

The anti-usury bill, introduced into the House by Col. Biair, limits the rates of interest to seven per cent, with a penalty of a torfeiture of the principal and interest, where more than that rate is taken or contracted for. We are assured that the bill will pass both houses, as there seems to be little or no opposition to it. Such a law no doubt will reduce the number of money lenders or shavers, and to turn more capital into manufacturing operations, and other business channels, as well as prevent such high rates of interest as have ruined hundreds within the last few years.

Miraculous Cure or Diseases.—Two or three Catholic priests have been preaching for several weeks past in different parishes in the Diocese of Brooklyn, and have excited a religious interest of a remarkable character. Freeman's Journal, reliable Catholic authority, as sorts that during the course of this mission God was pleased to manifest his favor by special graces of an external character. The rumor went abroad among the humble who mostly compase the parish, that bodily diseases were cured by some of these missionaries. The hillid, the lame, the afflicted with various chronic diseases were brought to the church in great numbers. The sensation created by this movement among those unprepared by education for such "signs following them that believe," yeas intense. Father Gaudetius blemed those that came to him with the relies of the Cross, and in some cases cures were effected on the instant. Others were popularly reported, but not so attested as to be cited here. A physician of Brooklyn was one of the number converted by the grace bestowed in this mission.

The total amount produced by the sale of ands and lots in May, 1857, was \$41/397.

The amount of cash merived therefrom at the lime of sale was \$12.38c 63,—the balance is ayable by the terms of sale established by law none, two and three years from the day of also. in one, two and three years from the day of sale.

The quantity of Canal Lands of the two grants of 1827 and 1842 remaining unsold on the 50th of November, 1857, was 15,675 c0-190 acres, valued by the playpraisers of Canal Lands in 1846 at \$48,506 36. The Trastees have no means of knowing what sum may be expected to be realized from these remaining acres,—some of them may prove to be of little value.

The Canal Lands under the grant of 1854, and lying in Livingston, Kankakee, and Vermillion counties, amount to 32,898 acres, which have been valued by the State Appraisers at \$147,740 63.

THE CANAL AND ITS ECHNESS IN 1887.

The rates of toll for the year 1857 were established by the Board of Trastess by resolution of 26th January, 1857.

With the exception of an increase in the rates of lumber, stone, and hoats used for the transportation of freight, the tariff as established for the year 1856 was continued.

The Canal was opened from Chicago to Joliet on the 18th April, and on the 1st day of May a loaded hoat arrived at La Salle from Chicago. ENERAL ADVECTISING AGENT FO all the leading papers of the West and Kerthivens.

The work maintained are 95 miles of Canal proper, 25 miles of navigable feeders, with looks, dams, aqueduots, bridges, culverts, wastewairs, bankins, &c., &c., together with two steam pumping engines at the summit, for the supply of water for the Canal, in times of drought. drought.

The receipts from tolls during the past year, notwithstanding the delays to navigation in consequence of the destructive floods in the spring, the sudden closing of the Canal by frost out the 20th of November, and the excessively hard times during the hatter part of the season, are quite satisfactory—being \$13,519.75 more than in 1856, and only \$496.54 tess than in 1864, the season of the largest receipts since the opening of the Canal in 1848.
